Perm State University

—

2011 - 2014

WORK EXPERIENCE

Senior Front End Developer
Ignite (formerly Tendermint)

JUL 2021
JUL 2022

- Working in the design team to build websites using Vue, Nuxt, SCSS.
- Created dApp for Blockchain Accelerator Platform using Vue, TypeScript, Pinia, PostCSS, and Tailwind.
- Decision-making on tech stack for new projects.

Front End Developer
Xsolla

APR 2020
JUL 2021

- Support Payment Gate using Angular.
- Creating new features for Publisher Account using React and Redux.
- I improved test coverage and introduced tests with Jest.
- Refactoring large legacy codebase.
- Mentoring junior developers with frontend best practices.

Front End Developer
Hot-WiFi

JAN 2019
APR 2020

I created and supported complex applications for the platform that manages guest WiFi with authorization. This complex includes a dashboard for customers, the main website, promotional websites, and an interface for MikroTik routers.
I've used React, Redux, PostCSS, SCSS, and Vanilla.js.

Front End Developer
Sborka Project

SEP 2016
JAN 2019

- I created websites using JavaScript, Stylus, and Jade.
- Also, I developed UI/UX for web applications using React.js, MobX, and TypeScript and integrated it with API.
- I created of animations on WebGL, GSAP, and Canvas and I have awards issued by Awwwards and CSS Design Awards for 2 projects.

Full Stack Developer
NewProject

JUL 2014
OCT 2016

I created and supported about 10 websites for local businesses using WordPress CMS, PHP, Node.js, Javascript, jQuery, and Less.
